1. Introduction

1.1 The project Coordinator

The European Research Institute Foundation (ERI) is seeking the services of a communication agency for the engagement of influencers to strengthen the proposed awareness campaign within the framework of the project “Safe and legal alternatives for Pakistani potential migrants and migrants on the Route” (SAFER).

ERI is a private, non-profit foundation established in 2011 in Turin (Italy) that promotes research and innovation in the areas of social inclusion and protection of the environment. Its mission is to improve the social, economic and cultural conditions of European citizens, enhance the social inclusion of third-country nationals and vulnerable-marginalised individuals, and promote respect for the environment and all living beings. ERI is committed to foster social cohesion and equality, respect of fundamental rights and promotion of cultural diversity in order to create equal opportunities and fight discrimination. ERI is responsible for coordinating the SAFER project in cooperation with the following partners: Danish Refugee Council (Italy), Kentro Merimnas Oikogeneias Kai Paidioy (KMOP, Greece) and Sofia University (Bulgaria).

1.2 The project

The SAFER project is co-funded by the European Commission through the AMIF programme (Asylum, Migration and Integration Fund). The project started on the 1st of May, 2023 and its duration is 24 months. The project’s general objective is to design and implement an information and awareness-raising campaign on the risks of irregular migration in Pakistan. The proposed campaign intends to contribute to a change of perception and behaviour of the Pakistani population in relation to the idea of irregularly migrating to Europe. In order to achieve this, it seeks to provide reliable, factual, balanced information not only on the dangers in which migrants may

incur during the journey and after arrival, but especially on safe and legal alternatives of migration and available economic opportunities in the home country. To achieve these goals and effectively deliver its messages, the campaign will rely on selected local opinion leaders and influencers widely respected and trusted in the involved communities. By involving them as spokesperson, it aims to counter the inaccurate, misleading, malicious narratives on irregular migration and on living irregularly in the EU promoted by migrants' smugglers.

The proposed information and awareness campaign is expected to last 12 months and target young, unmarried men aged between 18-30 having an educational background between primary and secondary school and residing across five regions, namely the Islamabad Capital territory and the provinces of Balochistan, Khyber Pakhtunkhwa, Punjab, and Sindh. As such, the campaign will be tailored to the specific needs and expectations of this target group, and it will be mainly based on word-of-mouth communication, which has been widely regarded as the most effective communication channel to encourage attitudinal and behavioural change, as well as supported by social media communication. Throughout the campaign's implementation timeframe, a hotline will be made available for both calls and messages to actual and potential migrants; a web platform will be launched to provide useful information to reduce the risk of harm and victimisation; and 30 bimonthly community events will be held, six in each region involved.

2. Background

Irregular migration is a long-standing challenge for the EU, particularly since 2015, which the EU has been trying to prevent by enacting a number of specific policies. Among other measures, the EU considers information and awareness-raising campaigns crucial tools to prevent irregular migration and in the last five years has financed a number of information and awareness-raising activities in third countries of origin and transit through the AMIF. The SAFER project aims to design and implement an information and awareness-raising campaign on the risks of irregular migration in Pakistan, coherently with the EU Action Plan against migrant smuggling 2021-2025. In particular, SAFER project intends to promote access to reliable information to both future migrants and migrants already on the route to Europe.

According to the 2021 Frontex "Risk analysis report", Pakistan is the sixth out of ten top countries of origin in the clandestine entries at land and sea chart, making the country a relevant territory in the framework of the EU Action Plan against migrants smuggling 2021-2025. In line with the operational partnerships and cooperation plan with non- EU countries promoted by the European Union, the SAFER project aims to promote an awareness campaign that entails the participation of relevant spokespersons both in the home country (i.e. religious and community leaders, teachers and returning migrants) and Pakistani nationals members of trustable diaspora communities in Europe. As emerged in previous AMIF funded projects implemented in Pakistan, individuals who tend to engage in irregular migration are mainly unmarried young men (18-30) with an educational

background between primary and secondary school from all regions of the country.

The proposed campaign will mainly use word-of-mouth communication in a one-on-one setting, such as setting up a dedicated hotline that allows users to leave voice and email messages, and organising community events. As the literature shows, word-of-mouth channels were the most effective channels for changing attitudes and behaviours in past campaigns for a number of reasons. e.g. there is an interaction between messenger and receiver, the interaction is personal and based on a relationship, there is an opportunity to take into account the migrants' personal needs, migrants are more likely to talk openly, the audience's engagement and retention of messages is increased. In past campaigns, community events appeared useful and effective for spreading campaign messages to a wider audience, advertising word-of-mouth services, addressing secondary audiences like family and friends, gaining the trust of the community and building brand awareness. In addition, the proposed campaign will use social media as a supporting channel to reinforce the messages and reach a large audience fast and in a cost-effective way .

The campaign will be implemented in the five main regions of Pakistan: Islamabad, Punjab, Khyber Pakhtunkhwa, Balochistan and Sindh. The autonomous territories of Kashmir and Gilgit Baltistan will not be included in the project for security reasons, since they are disputed territories and the socio-political context is too unstable. It is expected that the bi-monthly community events will have the following structure: a) a lecture by an invited speaker followed by Q&A session (religious leaders, experts of visa-related issues, labour consultants, experts of vocational training etc.); b) Live online meetings between the audience and diaspora groups in Europe; speeches by diaspora community members and Q&A sessions; c) An entertainment part (display of cricket matches, movies, music/dance/theatre/comedy shows etc.).

3. Objective

This tender aims to select a communication agency for the engagement of influencers to strengthen the proposed awareness campaign on the risks of irregular migration and increase its impact. The purpose of the consultancy is to ensure the smooth engagement of influencers, to coordinate and monitor their activities in order to reach the target values established by the project indicators in terms of impact and reach.

4. Location

This consultancy service shall be carried out in Pakistan. Since the proposed awareness campaign is coordinated and monitored from Islamabad, the consultant may need to travel if the agency is not based in Islamabad.
